

Speed Bowling

Equipment: Cardboard Cones
Gator Balls

Game: Have students line up in squad lines. 5 cones are set up in a straight in front of each group. One person from each group stands behind the cones. The first person in line bowls the gator ball towards the cones. The person behind the cone shags the ball and returns the ball to the front of the line, hands the ball to the front person, and goes to the end of the bowling line. After bowling the ball, that person follows the ball down to the cone end and becomes the new ball shagger. The new front person bowls and so the game goes. The first team to get all the pins down is the winner. Repeat as many times as necessary.
